

**WE ARE PLANNING,
FUNDRAISING AND BUILDING A
SCHOOL FOR 200 DEAF
TEENAGERS IN KENYA.**

The need for a school is great. It will be an important improvement upon the current system in which many deaf teenagers miss out on a secondary education.

This August a group of students will be going out to Kenya to build the specialist school. By building excellent facilities we hope to start changing attitudes towards disability.

**WE NEED
YOUR HELP!**
